

THE WEATHER'S BALL

Tornado tangoed with Thunder,
Lightning limboed with rain,
Hailstone partnered Blizzard,
Gale high-stepped with Hurricane.
Fog went to the ball with Drizzle,
Snow with her best friend Sleet,
Wind waltzed away with Cyclone,
Sunshine shimmied in with Heat.
Storm took to the floor with Warm Front,
Monsoon was led by Drought,
Tsunami came in with a huge fanfare,
Flashflood came in without.
Typhoon and Twister both arrived
with Tidal Wave and Squall,
but dressed in a dazzling rainbow,
young Cloud eclipsed them all.
